

CM200/D

The ideal solution
for safe deposits

SMART

SECURE

USERFRIENDLY

RELIABLE

ECOFRIENDLY

SIMPLE AND SAFE CASH MANAGEMENT

The CM200 devices, available in different configurations, allow the operator to secure the cash collected in real time.

Thanks to the reporting capabilities, you can always have stock information at your disposal; this allows you to monitor accounting flows and minimize transport and accounting costs. The security features guarantee a fundamental deterrent function against attempted theft or robbery
